LAUNCH WINDOW

### Next 72 Hours

- Mar 4 • Starbase, Texas**  
Ship 39 preflight objective sequence
- Mar 4 • Baikonur, Kazakhstan**  
Soyuz pad return-to-service verification
- Mar 5 • Vandenberg, California**  
West-coast manifest watch on launch boards

NARRATIVE BALANCE

### Signal Split

61% means most cross-source mentions emphasized scale-up momentum (new constellation planning, production funding, and test progress). 39% reflects meaningful caution around policy jurisdiction fights and institutional capacity constraints.
