TOPLINE

## Launch cadence + lunar surface ops are leading today's signal mix.

Blue Origin is showcasing the production cadence of its New Glenn heavy-lift rocket at its Space Coast facilities, with CEO Dave Limp revealing a rocket factory in full swing. The company has multiple second stages in various phases of assembly, as it attempts to accelerate its launch cadence following two successful flights in 2025, and its opening launch of 2026 in the coming weeks.
